Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 4, 11-15 are objected to because of the following informalities:

A- Regarding claims 1-15, "open/close" should be changed to --open or close--.

B- Regarding claim 4, "electric components" should be changed to --the electric component--.

C- Regarding claims 11-15, the phrase "a noncontact switch" should be changed to --noncontact switches--.

D- Regarding claims 11-15, "hosing" should be changed to --housing--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A- Regarding claim 2, applicant should clarify the phrase "a housing portion is formed at a base". What base is the applicant trying to describe.

B- The term "such as" in claim 3 is a relative term which renders the claim indefinite. The term "such as" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

C- Regarding claims 11-15, the phrase "each detecting portion" lack antecedent basis.

Art Unit: 2832

D- Regarding claims 11-15, the phrase "facing to the operating switch" is not clear. It should be "faces the operating switch".

Allowable Subject Matter

3. Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance:

The Prior Art does not teach or suggest a door open/close operating device comprising a control device which detects an operation of the operating switch, an actuator which is driven by the control device, an output member which is driven by the actuator and transmits a drive force from the actuator to a door open/close member, and an auxiliary power source which subsidiarily supplies a power to the control device and the actuator, wherein the operating switch, wherein the operating switch, the control device, the actuator, the output member and the auxiliary power source are integrally formed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
